THE CENTRE OF INFORMATION ON CULTURE

**The National Information and Consulting Centre for Local Culture** is authorized by **the Ministry of Culture of the Czech Republic** to gather and process statistical reports about the activities of the cultural facilities established by the Ministry of Culture of the Czech Republic, other bodies of state administration, municipalities and towns, church, civic associations per Law 83/1990 Coll., in the wording of later regulations, foundations, entrepreneurs, entrepreneurial subjects, and others.

We provide **comprehensive, basic information comparing 2004 data to those from previous years 2000, 2001, 2002, 2003 in all observed fields, to interested parties**. The data come from reports approved by the Czech Statistical Office.

The selection of findings is based on the practical need **to promptly provide basic comparable data in cumulative values**.

We would like to thank all reporting units that submitted statistical reports. During the process of the material, the protection of data concerning individuals have been guaranteed in accordance with Law No. 89/1995 Coll., on the State Statistical Service, as last amended.

# AUDIOVISUAL WORKS

Data on the production and distribution of audiovisual (AV) works, in the spirit of Law No. 121/2000 Coll., the copyright law, and Law No. 273/1993 Coll., on audiovisual works, were statistically analyzed. These are works recorded on film strip (films) or other media (video films), broken up according to length into long, medium, and short. AV works can be made live-action, animated, documentary, advertisements, and others. The subject of the statistics is the production of AV works, the distribution of feature films to cinemas, exports of AV works, and the production of Czech – Language versions (dubbing).

The data from companies engaged in the production and distribution of AV works are divided into three groups according to the type of organizers of the works. The first group comprises the National Film Archive, a state-subsidized the Ministry of Culture. The second group includes data provided by subjects establish by State administrative bodies (6), by generally beneficial companies (1), and another non-profit legal entity (1). The third group includes data provided by entrepreneurial subjects (76) and entrepreneurs (29).

There is no ranking of film companies for 2004, because many of them took advantage of the right to protect individual data guaranteed by Law No. 89/1995 Coll., on the state statistical service, as last amended, and did not consent to the publication of the individual data.

# THEATRES

Performances at theatres in the Czech Republic were statistically analyzed.

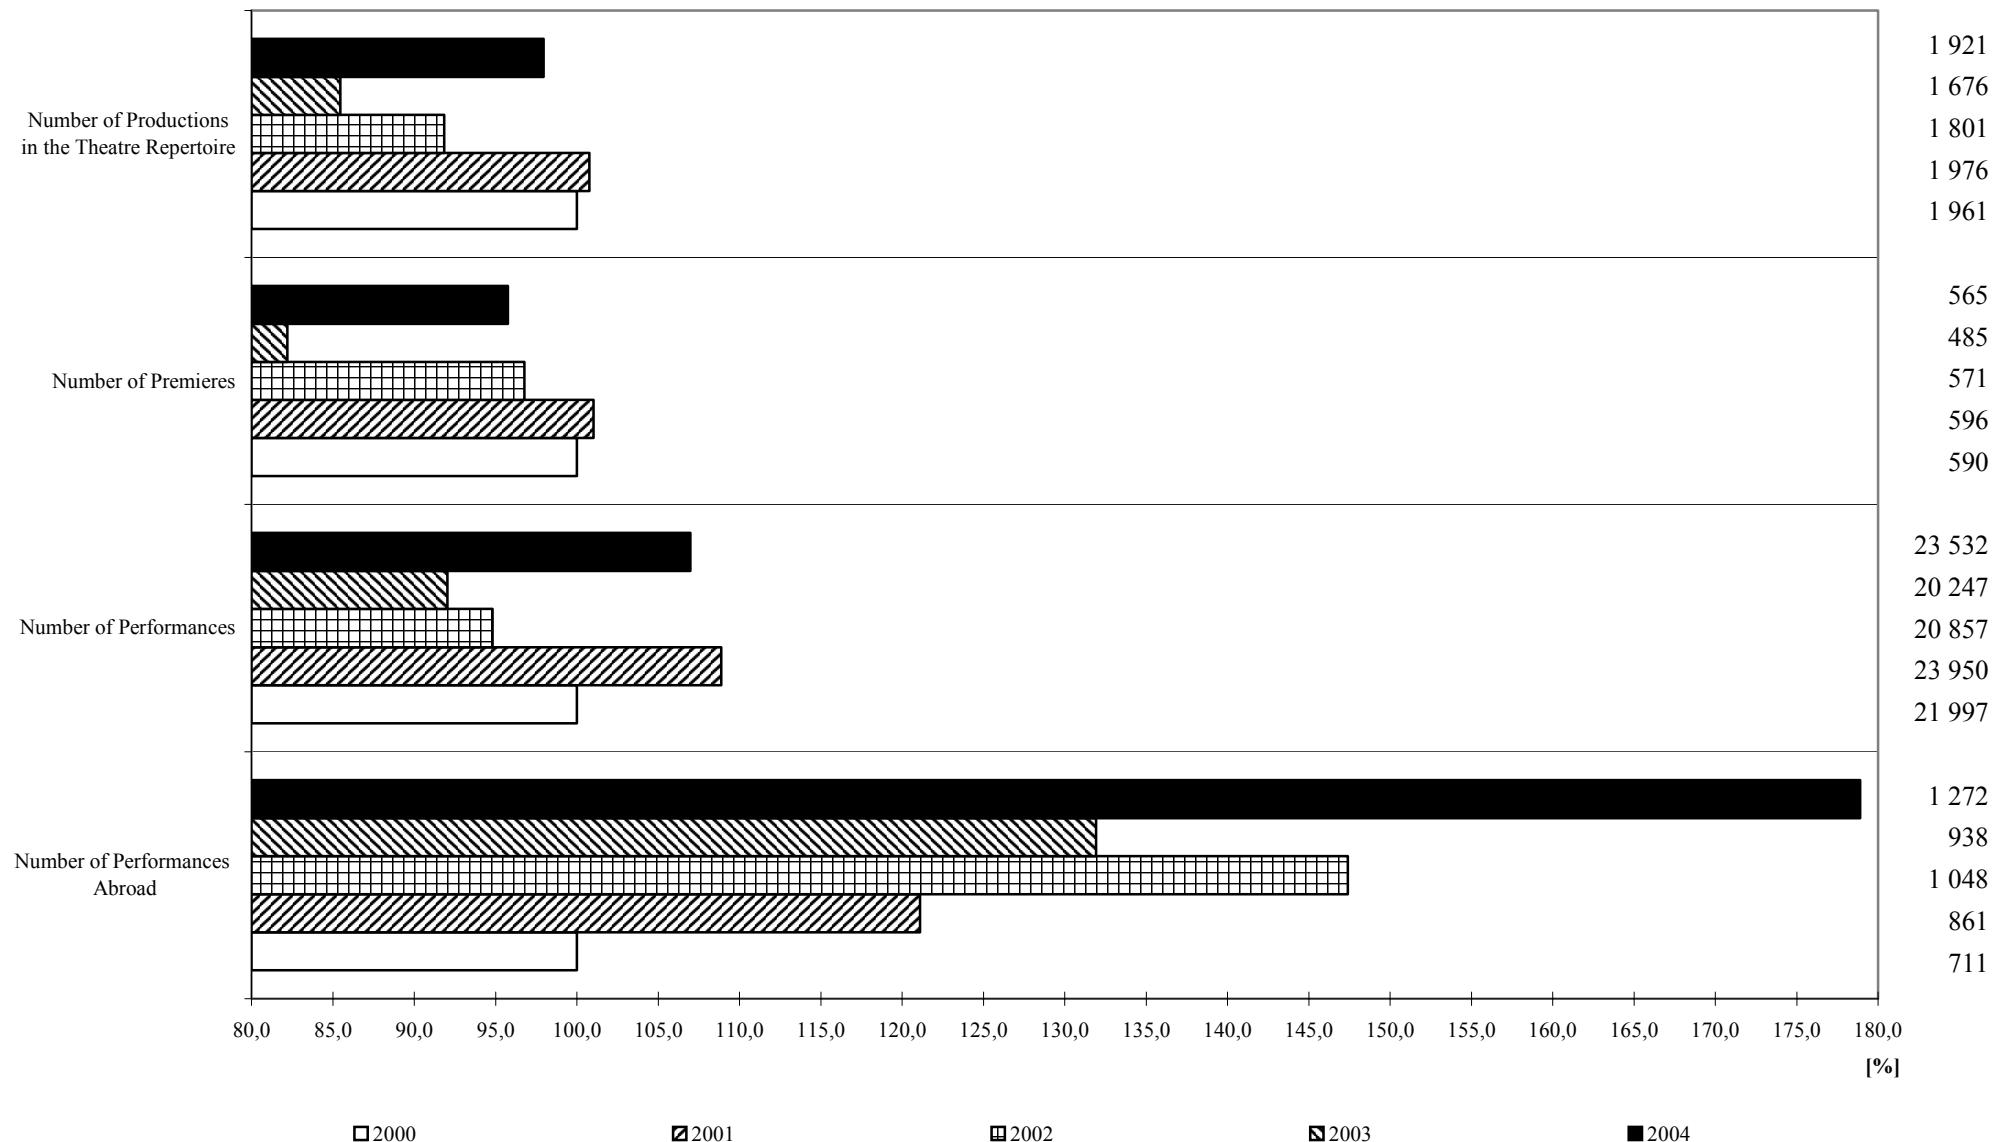

The most comprehensive and complete data relate to theatres are established by state administrative bodies - the Ministry of Culture ministry (3), the Ministry of Education, Youth and Physical Training (4) - regions (2), municipalities and towns (40). One or more theatrical companies perform in these theatres. Theatres established by entrepreneurs (30) and entrepreneurial subjects (9), civic associations (25), generally beneficial companies (4), foundations, etc., regularly produce theatrical and dance performances. Since 1999 the statistical analyses have also included *stagione* theatres. These theatres facilities that don't have their own ensembles and don't necessarily produce theatrical and dance performances, but in 2004 hosted at least 20 theatrical and dance performances.

In 2004 the number of theatres established by state administrative bodies, regions, municipalities, and towns also declined slightly. This was due to the gradual process of transforming subsidized organizations to different legal forms, and does not indicate an actual decline in the number of theatres in the Czech Republic. The number of permanent sets, premieres, and employees declined for the same reasons. It's surprising that this did not lead to a decline in the number of titles, performances realized, and audience size, and, along with the increasing audience percentage, indicates the maximum effort exerted by theatres to both maximally provide public service and to be self-sufficient to the maximal degree (the determined 33% is far above the European average). The number of performances abroad, particularly musicals, also increased markedly. The increased number of ensembles is connected with a more precise definition of the organizational structure within already existing institutions.

The statistical data for 2000 and 2001 were processed by the Theatre Institute in Prague.

## Theatres and Theatre Groups Established by Entrepreneurs, Entrepreneurial subjects<sup>1)</sup> in 2004

<sup>1)</sup> More private theatres than are included in the following tables operate in the Czech Republic. However, due to a lack of clarity in this area, it is impossible to find an exhaustive summary. Most entities do not have permanent stages (performances are given on tours or are "sold" to other cultural facilities), and several do not have permanent companies. Performers and technicians are contracted for individual performances. For this reason, the number of stated employees is relatively low.

## Theatres Without Their Own Professional Theatre Ensembles in 2004

Seasonal theatres that do not have their own ensembles and regularly stage theatrical performances in their programs were included in the statistical survey for the first time in 1999. The main criterion for an entity to fall within the scope of the survey was the total number of theatrical performances given during the year. This number was set at 40 performances by year 1999 and 20 performances from year 2000.

# **GALLERIES (VISUAL ART MUSEUMS), MUSEUMS AND MONUMENTS**

Cultural statistics are monitored for museums, monuments, and galleries (visual art museums), including branches within the Czech Republic. Monuments are understood as rooms or structures where expositions or exhibitions are installed. Galleries that own collection items are monitored, so-called visual art museums.

Of the total of 461 (+ 280 branches) statistically monitored facilities in 2004, 32 were established by state administrative bodies, 18 of which by the Ministry of Culture. Regions establish 94 institutions and municipalities and towns establish 208. Generally beneficial companies, civic associations as per Law No. 83/1990 Coll., churches, and other entities establish 38 galleries and museums, including monuments and entrepreneurial subjects and entrepreneurs 47. One organizer can manage more than one facility, e.g., a museum and a gallery.

These facilities manage or make use of, based on leasing contracts, 675 structures designated as cultural monuments.

# **OBSERVATORIES, PLANETARIUMS AND ASTRONOMICAL OBSERVATION POSTS**

The activities of observatories, planetariums, and astronomical observation posts that are open to the public were the subject of statistical analysis. This also includes large and smaller professional facilities, amateur observatories, and astronomic observation posts, some of which are private. Of a total of 56 statistically monitored facilities, 34 are established by regions and municipalities and towns, 2 by the Ministry of Education, Youth and Physical Training, 10 by civic associations and foundations, 10 are private.

Observatories and other astronomical facilities organized one-time educational and cultural events and long-term educational events such as observation projects, lecture series, etc.

# **LIBRARIES**

As a subject of the statistical investigation there are public libraries. From a total of 5,885 libraries, two are established by the Ministry of Culture – National Library of the Czech Republic and Moravian Library - 12 are established by regions - scientific libraries in Kladno, České Budějovice, Karlovy Vary, Plzeň, Ústí nad Labem, Liberec, Hradec Králové, Pardubice, Havlíčkův Brod, Olomouc, Zlín, and Ostrava - and 5,871 are established by towns and municipalities.

In the last years has been much improved the number of study positions, the number of computers per user, and the number of computers connected to the Internet all increased, which markedly improved library information services.

\* Libraries established by the Ministry of Culture

1) In the year 2002 instead of 9 state science libraries were established 12 regional libraries

2) The data for basic libraries encharged with the regional functions are presented separately since the year 2004. Originally monitored district libraries and municipal libraries in district towns are not presented separately since the year 2004. Therefore there were made changes in absolute values and percentages in columns C and D and F.

3) Since the year 2000 are the data for municipal libraries in district towns presented separately. These libraries were originally arranged among other libraries with professional employees. However during the transformation process the district libraries have got a possession of regional libraries, therefore they are listed separately now. Therefore significant changes in absolute values and percentages are evident in columns D and F.

4) Municipal library of Prague belongs to regional libraries.

# **NON-PERIODICAL PUBLICATIONS**

This chapter contains data on all printed non-periodical publications as per Law No. 37/1995 Coll., issued in the Czech Republic and available to the public. Under the term non-periodical publication we understand copies of literature and scientific and artistic works intended for public dissemination, that are published once or at most once annually or even more often in parts, if their contents form a unified whole.

Statistical data about non-periodical publications were processed by the National Library of the Czech Republic, on the basis of the Legal Deposit.

# **PERIODICALS**

The statistical investigation of periodicals includes all periodically printed publications issued and registered in the Czech Republic as per Law No. 46/2000 Coll., and are available to the public (sold or distributed free of charge). Under the term periodical printed media we include newspapers, magazines, and other printed materials issued under the same name, with the same content focus, and with consistent graphical form, at least twice per calendar year. The number of newspapers does not include local editions of the same newspaper if they do not differ and parts of newspapers that are not sold separately, special editions, morning, mid-day, and evening papers if they have their own names and registrations, and different linguistic editions (versions) of the same periodicals.

Statistical data about non-periodical publications were processed by the National Library of the Czech Republic, on the basis of the Legal Deposit.

# **EXHIBITIONS OF PROFESSIONAL GRAPHIC AND PLASTIC ARTS AND ARCHITECTURE**

A statistical investigation of exhibition activities in the area of professional graphic and plastic arts and architecture summarizes the number of galleries, exhibition halls, and other spaces intended for exhibits. This involves facilities that don't own collection items. Of a total of 316 statistically investigated galleries and exhibition halls, 6 were founded by state administrative bodies, one of them by the Ministry of Culture. Eighty-two galleries were established by regions, municipalities and towns, while seventy-four were founded by universities, foundations, by generally beneficial companies, civic associations as per Law No. 83/1990 Coll., as well as by churches and trade-union organizations. This investigation involved 159 entrepreneurial subjects and entrepreneurs exhibition halls.

The list of exhibition spaces is up-dated annually. There are ongoing changes among galleries and exhibition halls established by entrepreneurial subjects and entrepreneurs. New ones are established and due to a lack of finances existing galleries are closed or are changed to sales galleries that don't organize any exhibitions.
